

TH299 Motor Controller with RS232

TH299 is a tubular motor controller designed to operate with low voltage DC tubular motors. It offers bi-directional motor control with auto close feature. In addition, the TH299 can be daisy-chained for rain and close all functions to control multiple units.

TecHome supplies a range of compatible DC tubular motors, the NZ1-DC series. Other TecHome options include the TH308 Rain Sensor input, the ANEM4 Anemometer Wind Sensor input, the LUX Light Sensor input and RF & IR remote control options including the TVTXQ916A03.

TH299

TH299 Features

- >> Compatible with low voltage DC tubular motors
- >> Input options include rain & wind sensors
- >> Interfaces with RS232
- >> IR or RF remote control compatible
- >> One year warranty

TH299 Technical Specifications

Size:	130mm x 67mm x 44mm
Weight:	200 gms
Power supply:	16V/24V DC
Operating Temp. range:	0-50 deg C
CTICK:	N3744
Frequency:	916 MHz
