Note

- 1 Motor 12V current is around 2 times in 24V; Motor 36V current is around 2/3 in 24V; Motor 48V current is around 1/2 in 24V; speed is around the same.
- 2 Above self lock performance needs working with Timotion control system in push direction.
- 3 Please refer to approval drawing for final value.
- 4 Environmental noise ≤ 38db.
