## ANTUATOR ACTUATORS

## INSTALLATION AND WIRING MANUAL

## POWER SUPPLY

The power supply required for the actuator will depend on the Actuator, please read the label on the Actuator for the recommended voltage.

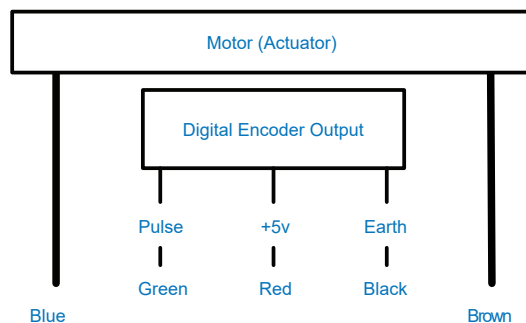

## FUSE

It is recommended that an inline fuse be fitted, please use a fuse that is 10% higher (or as close as possible) than the Max current rated on the Actuator label.

E.g. Use a 3.2A fuse for a 3A Actuator.

## BASIC WIRING DIAGRAM

Wiring		Antuator
Motor +/-		Blue
Motor +/-		Brown
Hall In		Red
Hall 2 Out		White
Hall 1 Out		Green
Hall Ground		Black

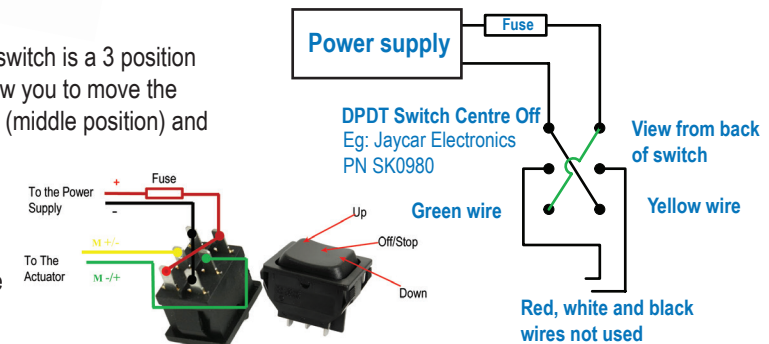

## WIRING TO TECHHOME'S MOTOR CONTROLLERS

## SWITCH

In the example diagram, the switch is a 3 position switch on/off/on. This will allow you to move the Actuator in, stop the Actuator (middle position) and move the Actuator out.

Please ensure the switch current rating exceeds the Max current stated on the actuator label.

## ACTUATOR MOUNTING OPTIONS
