HE709
Series

Product Segments

Motor Controller

Features:
- Slimline motor control and remote design
- Controls 1 motor
- Low voltage
- Basic on/off feature
- Additional products feature

Benefits:
- Slimline design for easy installation and concealment of devices
- Basic 1 motor control allows users to easily install and use
- Energy efficient, compatible with any 12V linear actuator
- Easy to add suite of additional products

HE709 12v Low Current Motor Controller Kit
The TecHome HE709 low current motor controller kit is perfect for basic remote motor control. The HE709 kit is easily integrated with TecHome products, allowing easy remote control of our range of 12V linear actuators

General Features

Voltage	12V
Current	5A
Temperature	0-45ºC
Dimensions	174mm x 27mm x 38mm
Weight	110g
Compliant to	FCC & CE
